It has been a great pleasure welcoming our clients at Fondarex over the past three days for dedicated training on vacuum, jet cooling, and squeeze pin technologies.

Reconnecting in-house with our valued partners is always an excellent opportunity to exchange knowledge, strengthen collaboration, and demonstrate how our solutions contribute to continuous improvement and higher quality in die casting.

A big thank you to all participants for your engagement, questions, and insights throughout the sessions.

We look forward to supporting your future projects and continuing to push the boundaries of innovation together.
