

Fantastic FX TECHNOLOGY training day in Querétaro!

As part of our 80th anniversary global training tour, we successfully completed our Mexico stop with outstanding engagement in Monterrey and most recently in Querétaro.

From vacuum to jet cooling and squeeze systems, the sessions showcased performance, innovation, and real process impact.

Thank you to all participants for your time, enthusiasm, and interest in FX Technologies.

Together, we're shaping the future of casting.

Next tour stops:

Apr 22–24 – Switzerland / St-Légier

Apr 27 – India / Pune

Apr 29 – India / Chennai

May 14 – Korea / Ulsan

May 18–19 – Italy / Bergamo
