Two FX PREMIUM Units. Two Continents. One Shared Vision: Excellence in Die-Casting Technology.

One unit is on route to a leading OEM in Romania. The other is making its journey from a Tier 1 supplier in Spain to a production facility in Mexico.

This milestone reflects a clear and consistent commitment: delivering the highest standards of performance, quality, and innovation across borders.

A sincere thank you to our trusted partners for their ongoing confidence and collaboration.

Together, we are shaping the future of die casting.
